

Each lesson includes a Retrieval Practice (phonogram flash cards and dictation) and an introduction to 4 new phonograms. Beginning with Lesson 10, a video called "Words" is included. The words were chosen to introduce spelling rules and to practice *Think to Spell*, a routine for "sounding out" words using phonograms & syllables. Some lessons include creation of anchor charts. Learning the code and learning how to think to write a word are central components of Alice Nine's *Johnny Can Spell* integrated approach for systematic, explicit phonics, handwriting, and spelling instruction. This course is a recommended prerequisite to the *Word Study 2-5* courses.

At the end of the course there are phonogram flash card videos that can be used randomly throughout the year., i.e., in a work station, at the beginning of the day during whole-group time. Share www.phonogrampage.com with parents for at home practice of individual phonogram cards and lower case letter formation (printing, manuscript).
