"Letters, Sounds, Words" Lessons Outline

This outline of lessons has been created to help you incorporate the Alice Nine videos into your daily lesson plans. Individual video viewing times are listed as well as a total lesson viewing time; the times do not include opening the video and pausing the video to repeat practice. You may complete all the videos in a single day, or you may divide them across multiple days. You know

your student(s); you, the teacher, determine the pace of instruction. See "Letters, Sounds, Words" Pacing Guide for pacing lessons across two days (80 lessons, 150 days).
